How to Install a Blank Screen on a Dell XPS 13 2-In-1 (7870)? POST #2 HERE: Video: ****There are more patches but i'd rather give out only the ones that i know what the patches are for!!**** This is just the first patch.(8584F7F7). If you have any patches on your series 8+ then this patch will fix it for you. It'll be like a fresh new screen. The only problem will be that the screen will be blank, until you change that one patch to the first patch. I use this patch it can be downloaded HERE. (It's a zip file). (This patch is for all the XPS 13) Let me know if this works or not!!!! As you try to download Windows 10, however, this error message will pop up. When you tap on "Download Now", this window will pop up. The page will initially load slowly, but the download will start in just a few seconds. When you see the "Start Download" button, click on it, and wait for the download to start. The download will take some time to complete, depending on the size of the installation package. After the download completes, you can click on the "Open Installation Package" button to complete the Windows 10 installation. Get EasyBCD
