WallReminder Basic is the best free text editor for your Mac. WallReminder Basic lets you easily add text to your Desktop, Launchpad, Application Launch and Screen shots. You can even add a custom image and text to your Launchpad. The only limit is your imagination. WallReminder Basic can easily be added to your Launchpad by right clicking on an existing Launchpad item and adding the WallReminder Basic icon. WallReminder Basic also lets you modify files. You can add your own text to any filetype. WallReminder Basic will even open your document if you don't have the specific filetype installed on your system. WallReminder Basic's unique features:

- Simple, Clean and Easy to use - A full toolbox of text tools are at your fingertips in a graphical user interface.
- Wallpaper, Icon, App Launchpad and Text Editing - WallReminder Basic will update your Wallpaper, Launchpad icon and App Launcher items with your new text - giving you multiple options for getting the job done right.
- Easy to add a Custom Image - You can add a custom image to your App Launcher.
- Quick Image Search - Search your computer for a specific image or file type.
- Sortable List View - Easily sort your images, documents, bookmarks, downloads and playlists.
- Bookmark Manager - Easily create and manage bookmarks on your Mac.
- Works with any filetype - WallReminder Basic can handle many different filetypes.
- Lock Screen Text Messages - Automatically add your most important text messages to your Mac's lock screen.
- Never get lost again - WallReminder Basic remembers where you place your files, documents, bookmarks and even links.
- Never miss a beat - WallReminder Basic can also remind you about your calendar events and appointments.
- One-Click Wallpaper Updates - WallReminder Basic will update your Mac's Wallpaper whenever you have a change.
- Easy to read - WallReminder Basic's text background gives you many options to set the background color for an even easier reading experience.
- Work on all your Macs and Devices - WallReminder Basic also works on your iPhone, iPad and iPod.

Flash cards: WallReminder Basic is a free text editor for your Mac that allows you to add text to the Desktop, Launchpad, Application Launch and Screen shots. It can even add a custom image to your launchpad and 81e310abbf

WallReminder is a simple and easy to use reminder software to remind you about your tasks for tomorrow. Simply define a Time for the Reminder, a Frequency, which can be Daily, Weekly, Monthly or Yearly, and if you want, select a Speaker. When the defined Time is about to come, you will be notified, by either the speaker you have chosen, or by a simple sound. Features :

- \* Simple, easy to use interface.
- \* Configurable Frequency and/or time span to get reminders.
- \* Up to 5 times per day and per week, with their own time specification.
- \* Configurable Time-specs.
- \* Configurable daily alarm sound.
- \* Configurable Speaker.
- \* Multiple alarms.
- \* Sound volume adjustable for each of your notification sounds.
- \* Option to configure your speakers in the tray area.
- \* Option to define your own folder to store your reminders.
- \* Option to define your own Image for the Reminder.
- \* Option to display text on top of the image, while it is displayed in your wallpaper.
- \* Option to place a text from the clipboard (by default, to your desktop folder) to the top of your wallpaper.
- \* Option to select a background image from your computer's hard disk.
- \* "Drag and Drop" functionality between reminders and folder.
- \* Supports any image file types.
- \* Supports all image editors and image browsers.
- \* You can choose your wallpaper from the moment you start up your PC.
- \* You can also set a reminder to start your windows applications at the specified time.
- \* Set your alarm volume to 0, so you won't be disturbed.
- \* Import your reminder list and reminders from your other applications.
- \* Import any text or path from the clipboard to the reminders folder.
- \* Option to remember a task even after the window is closed.
- \* Ability to edit pictures in your desktop folder.
- \* Option to custom set the "Reminder start" time from the "Today"-Time.
- \* Option to include your date and time in the reminder notification.
- \* Sort your reminders, in order to find the one you were looking for.
- \* Export the reminder list to a file, which can be opened in any text-editor, allowing you to modify and change your reminders, even if they are located on your computer.
- \* If a certain reminder is not working, it will appear on a small "notification" message in
