Self Test Training - C\_HANATEC142 2022 Crack Self Test Training - C\_HANATEC142 Crack For WindowsQ: Exception when calling File.Exists() I'm trying to delete a file programmatically if it exists, but I'm receiving a File Not Found exception if the file does not exist. Here is my code so far: public void DeleteFile(string fileToDelete) { try { File.Delete(fileToDelete); } catch { throw; } } This is called like so: if (File.Exists(filePath)) { try { // delete the file DeleteFile(filePath); } catch { throw; } } What's strange is that I'm not getting any exceptions when the file doesn't exist, and I get the expected exception when it does, but just without it being handled by the first try-catch. Is there something simple I'm missing here? A: File.Exists is static method, so it doesn't need instantiation of class. Try this:
