Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Subscribe to our channel. Hello and welcome to our Quests section. In this section we'll explain what it is, how to play, what you will find in the game. Welcome to Quests! So what is a quest? What you're actually doing in the game is pretty simple. You have to solve certain tasks. Every task has a certain level and you'll have to overcome them. What do we have? We have space, we have time, we have all levels. There's also other things. One of the most important things is that you'll be able to reach a certain level as a reward. What do we have in the free version? The free version has a single level, a single quest. Every level has a quest to complete. So on level one you'll have a quest to get the three pieces of wood you need to make paper. The next level is a quest where you'll need to collect the eggs, which will be your next reward. We will explain that throughout the game. You're getting space and time to search, an egg, a piece of paper and so on. You can have a free account and get all the levels. As we've said, a quest is a task. You'll find one here. We have a number of branches. As you can see here, each quest has an end. When you complete the end quest, the space and time will disappear. A quest has to be completed before it disappears. If you complete them all, you will get a level. So one quest will be complete, the others will become completed. The reward will be an egg. Let's go. So if you want to see the complete quest, you can hover over it. Let's see. It's going to disappear. What do I do? You'll need to search for this egg and you're getting the reward. So, in this case, we have an egg. So on level one, the quest is to get three pieces of wood, we have three pieces of wood here. The end quest is completed. We're 804945ef61
